FIRE PROTECTION COATING

Introducing

easy-guard™

FIRE PROTECTION COATING

The fire resistant coating for ultimate wall protection

Brought to you by Urban Hygiene Ltd

When lives are at stake you must be assured that you have the best possible fire protection available.

easy-guard is a revolutionary fire retardant coating that is safe and easy to use. It can be applied over any existing paintwork and is available in a wide range of colours designed to improve and enhance the living environment.

Water based **easy-guard** is fully compliant with all fire standard regulations and in the worst case Warrington blue board test achieves a Class '0' rating in just 3 coats.

For maximum durability **easy-guard** can be over coated with **easy-on** protective coating. This complete system will provide up to 20 years protection from graffiti, scuffing, bacteria and damage.

With its durable top coat, even graffiti removal can be carried out on a daily basis without compromising the fire protection finish, a common problem with other systems.

Ultimate fire and wall protection for up to 20 years - **easy-guard** + **easy-on**.

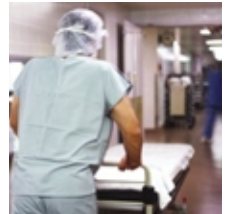

The benefits are clear

- ✓ Upgrades multi layer paint systems
- ✓ Ultimate fire resistance
- ✓ Wide range of colours
- ✓ Decorative finish
- ✓ Class '0' and '1' fire rating options in accordance with BS 476 Part 6 and 7
